#### DOWN WITH THE PRESS MO NOPOLY

The extensive partisan workings of the Associated Press monoply are an out rage upon the conservative sentiment of the country. This close corporation of news-mongers is in the hands of extreme Radicals They are the men who form and control the latest political intelligence duily flished over the wires and which constitute the news food upon which we feed. Full of venom towards the national reform movement of Mr. Tilden, this association is an open ally of Hayes, has the effrontery to scatter broad cast over the country the basely prejudiced falsehoods of that disreputable journal, the New York Times, and claims for them the orthodoxy of well established facts. That enterprising Hayes organ by means of a thoroughly organized corps of correspondents in the Bouth is daily manufacturing malicioulies as to the operations of the various Canvassing and Returning Boards, and the Press Association, its dupe, forthwith dispatches over the wires these falsehoods to be rehashed each morning by some great daily in our cities. Here-

in we see the audacity of Radicalism. The question with the people is, how to meet this hold movement of the enemy; how to spike this gun and show the Associated Press abettore here in the South that they condemn the partisan ship of the news monopoly. Let the people withdraw all patronage from such papers in our midst that belong to this lying news corporation. Dan't take such papers. One such may be found in each city and its columns daily teem with the foul slobber and slime of that
